# Lithuanian Polish Committee

- ▶ The Prime Ministers of the two countries are the honorary patrons of this Foundation, who have established the special role of the younger generation in shaping international relations. The legal basis for the Fund is a cross-border agreement and a Fund Regulation. The main governing body of the Fund is the Committee, which consists of 8 people (4 Lithuanians and 4 Poles). In December of each year, the Committee announces a competition for projects financed by the Fund for the following year.

# The main goals of the Lithuanian-Polish Youth Exchange Foundation are:

- ▶ to strengthen the role of the younger generation in shaping international relations
- ▶ to encourage young people and those working with young people to take joint action to bring them closer together
- ▶ to help overcome attitudes and stereotypes in valuing shared history and nurturing current relationships
- ▶ create an organizational and legal framework for more effective support for youth exchanges

# Erasmus +

Erasmus+

- ▶ The Erasmus Programme is a European Union (EU) student exchange programme established in 1987. Erasmus+, or Erasmus Plus, is the new programme combining all the EU's current schemes for education, training, youth and sport, which was started in January 2014.

# The main goals of Erasmus +

- ▶ The idea of promoting cultural, social, and academic exchanges between European students originated in 1969, with Italian Sofia Corradi, an educator and scientific consultant for the permanent conference of Italian University Rectors. Her role allowed her to raise awareness about this idea and make it known in the academic and institutional spheres.

# Erasmus + history

- ▶ The project was born after an initiative of the EGEE student association (now AEGEE) founded by Franck Biancheri (who later became president of the trans-European movement Newropeans) which in 1986–1987 convinced French president François Mitterrand to support the creation of the Erasmus programme.

The new Erasmus+ programme combines all the EU's current schemes for education, training, youth and sport, including the Lifelong Learning Programme, Youth in Action and five international co-operation programmes (Erasmus Mundus, Tempus, Alfa, Edulink and the programme for co-operation with industrialised countries).
